DANONE

Category Innovation & Commercial Insights Manager (Jun 2020 - Apr 2023)

Accelerated multi-channel portfolio performance and brand equity across dairy and plant-based sectors by driving data-led commercial strategies for major retail accounts.

Co-developed comprehensive category growth strategies, delivering a 15% increase in commercial performance through data-driven range reviews, core SKU rationalization, and precise distribution gap analysis.

Evaluated complex market dynamics, competitor activity, and market share trends utilizing Nielsen intelligence; translated raw data into visual PowerPoint business narratives for key retail partners and senior leadership.

Spearheaded robust category performance tracking and market analysis for 40+ New Product Developments (NPD), accurately evaluating cannibalization risks and aligning launches with evolving consumer trends.

Architected custom cross-functional Power BI dashboards for SKU lifecycle management, automating repetitive data compilation and improving overall reporting efficiency by 30%.

Territory Business Intelligence & Analytics Manager (Sep 2017 - Jun 2020)

Led the regional commercial intelligence and data analytics function, aligning market trends with internal sales indicators to identify untapped commercial opportunities.

Synthesized syndicated retail databases with internal commercial metrics to uncover regional distribution gaps, evaluate structural market shifts, and drive mutual brand-retailer growth.

Conducted rigorous post-promotional and post-campaign ROI evaluations, providing actionable insights that optimized future category trade marketing investments and promotional execution.

Constructed statistical forecasting models to project future category performance, directly mitigating supply chain risks and strengthening collaborative Joint Business Planning (JBP) with key accounts.

Managed and upskilled a dedicated team of junior data analysts, coaching them in commercial storytelling, advanced analytics methodologies, and KPI dashboard design.

GLAXOSMITHKLINE (GSK)

Commercial Sales Analyst (Consumer Healthcare / OTC Market) (Sep 2016 - Sep 2017)

Managed commercial tracking, inventory stability, and category visibility for high-volume healthcare portfolios across key grocery and pharmacy retail channels.

Designed, implemented, and monitored high-impact KPI dashboards tracking brand performance, distribution depth, and promotional efficacy in a highly regulated market.

Executed end-to-end sales, stock, and distribution analysis to enhance shelf visibility, minimize out-of-stock scenarios, and maximize retail distribution quality.

Analyzed granular shopper demographics and regional market trends to identify net-new growth opportunities for core OTC brands.

Commercial Operations & Sales Analyst (FMCG Market) (Jan 2014 - Sep 2016)

Optimized sales operations and commercial reporting logic through advanced data engineering, process automation, and CRM enhancement.

Maintained data hygiene and governed database integrity within Salesforce CRM, enabling precise account segmentation, targeted trade activity, and accurate sales territory mapping.

Re-engineered core reporting logic and automated repetitive operational workflows via Excel/VBA, successfully resolving cross-departmental bottlenecks and increasing reporting speed.

Developed predictive forecasting models leveraging historical sales and financial data to support new product pipeline planning and alignment with demand requirements.

CARLSBERG GROUP

Sales & Commercial Analyst (Sep 2010 - Dec 2013)

Delivered comprehensive operational reporting and dashboard automation to support regional commercial leadership.

Built, scaled, and maintained interactive regional sales performance dashboards using Excel/VBA, providing executive stakeholders with real-time visibility into distribution gaps and core performance indicators.

EDUCATION

Master's Degree in Economics & Applied Mathematics (QQI Level 9) | 2005 – 2010

Khabarovsk State University of Economics and Law

Focus on statistical modelling, data analysis, and econometrics.

Advanced Certificate in Business (QQI Level 6) | September 2025 – May 2026

Rathmines College of Further Education, Dublin

Key Modules: Business Management, Sales & Marketing, Applied Economics, Communications, Business Law.
